- 11:10 AM **Field trial of the MosquitoMate System on Fire Island, NY – Community Acceptance and Early Results:**
Dominick Ninivaggi and Ilia Rochlin, Suffolk County Mosquito Control
- 11:30 AM **A Day in the Life of a Public Health Entomologist:**
Rosmarie Kelly, GA Department of Public Health
- 12:00 Noon **Closing Remarks:**
Priscilla Matton, President NMCA

The NMCA Executive Board would like to thank the presenters, the exhibitors and the entire NMCA membership for their support in making this another great conference. We would like to wish everyone and their families a safe and happy holiday season.

We look forward to seeing everyone again next year at the Seacrest Beach Hotel in North Falmouth, MA from December 5-7, 2016 for the NMCA's 62nd annual meeting.

~ NMCA SCHOLARSHIP & AWARDS ~

The NMCA Executive Board wants to remind everyone it's not too soon to consider candidates for the various scholarships, grants and awards that the NMCA offers to the membership each year.

- ◆ **The Bob Armstrong Award:** is given to a NMCA member for meritorious service to NMCA and mosquito control.
- ◆ **The McColgan Grant-in-Aid:** will go to an individual whose work is directly related to the advancement of operational mosquito control.
- ◆ **The Jobbins Scholarship:** The Jobbins Scholarship will go to a student whose work is in an area relevant to mosquito, biting fly control or other vectors in the Northeast related to disease transmission; for example, wetlands biology-ecology, entomology or vector parasitology. Studies may range in nature from purely ecological to strict vector control.
- ◆ **The Dave Scott Memorial Award:** This award may acknowledge an improvement in a procedure, a practice, any of the many operational strategies that we perform in mosquito control on a day-to-day basis.
- ◆ **The David H. Colburn Award:** This award is dedicated to David H. Colburn, charter member of NMCA, in recognition of his service to mosquito control and his perfect attendance for the first 50 NMCA Annual Meetings. NMCA members in good standing for at least 2 years and with 20 years consecutive or cumulative in mosquito control are eligible.

For more information on these awards, please contact **Priscilla Matton**, Scholarship/Awards Chair at **(508) 823-5253** or check the website at **<www.nmca.org>** on the **Annual Meeting** page.

Altosid

FOURSTAR

Zenivex

FourStar: A Vectorious Addition.

With the addition of FourStar[®] products to our mosquito control lineup, Central Life Sciences now offers a portfolio of products the industry has never seen before.

By air, there's Zenivex[®] adulticide formulations to provide quick knockdown of adult mosquitoes in ULV applications. By water, there's Altosid[®] and FourStar[®] larvicides.

Each product can be used in standing water to stop larvae from developing into biting, disease carrying adults. Learn more about all three products and their different formulations at CentralMosquitoControl.com or call 1.800.248.7763.

Making communities around the world more livable, safe and comfortable.

For more information on our products and services please contact:

Wally Terrill

(413) 441-4147

WTerrill@clarke.com

Natular G will be listed in the OMRI Products List, available at the OMRI website www.omri.org and circulated to subscribing certifiers and state programs. This granular formulation joins the other Natular products (excluding DT) that have successfully completed the OMRI Product Review process, complying with the OMRI Policy and Standards manual and the requirements of the USDA National Organic Program Rule.

What this means is use of these Natular formulations in and around organic crop production will not endanger organic certification: Natular XRG (listed in 2011 as Natular G30), Natular T30, Natular XRT, Natular 2EC and Natular G

Natular formulations meet the criteria that make them an excellent choice for not only labeled environmentally-sensitive habitats but also for the growing number of communities with green or sustainable practice guidelines.
